

# SHRI HARI ENGINEERING

Precision Nails • Powerful Castings

*Engineered Strength  
in Every Product!*

## ABOUT US

Shri Hari Engineering is a growing and trusted name in the manufacturing sector, specializing in high-quality industrial fasteners and metal components, founded in 2021. With a commitment to precision engineering and consistent quality, we cater to diverse industrial needs across multiple sectors.

Our focus is on delivering durable, reliable, and performance-driven products that meet modern industrial standards. Through continuous improvement and customer-centric practices, we have established ourselves as a dependable partner in the engineering industry.

## OUR VISION

To become a leading manufacturer in the engineering and fastener industry by delivering innovative, high-quality and reliable products.

## OUR MISSION

To consistently meet customer expectations through quality manufacturing with ethical business practices and continuous technological advancement.

## WHY CHOOSE US

**Superior  
Quality Materials**

**Advanced  
Manufacturing Process**

**Precision  
Engineering Standards**

**Timely Delivery**

**Competitive Pricing**

**Customization Available**

## RANGE OF PRODUCTS

- **MS NAILS (MILD STEEL)**

High-strength and durable nails suitable for construction, packaging and general industrial use.

Available Nail Sizes: 1" to 6" (in 0.5" increments)

- **SS NAILS (STAINLESS STEEL)**

Corrosion-resistant nails designed for long-lasting performance in harsh environment.

Available Nail Sizes: 1" to 4" (in 0.5" increments)

- **COPPER NAILS**

Premium-quality nails known for excellent conductivity and superior resistance to rust.

Available Nail Sizes: 1" to 6" (in 0.5" increments)

- **GALVANIZED MS NAILS**

Specially treated MS nails with a protective zinc coating for enhanced durability and rust resistance.

Available Nail Sizes: 1" to 6" (in 0.5" increments)

- **METAL CASTING**

Precision metal casting tailored to specifications, ensuring strength and accuracy

Aluminum, Cast Iron, Steel, Copper (upto 100 kg)
